

GatewayRail's state-of-the-art warehouses combine technical competence with operational diligence to deliver logistics that turn problems into solutions. Our warehousing infrastructure has extensive capabilities for secure, efficient and committed logistics till the last mile. In keeping with the integrity of GatewayRail's security practises, our fully-owned, fully-equipped and expansive warehouses are also C TPAT (Customs Trade Partnership Against Terrorism) compliant.

Our ICDs at Gurgaon, Faridabad and Ludhiana abide by the Customs Act - Section 49 (Customs Act of Yellow Bill of Entry filed for Bonded Warehousing). ICD Gurgaon - Garhi Harsaru and ICD Faridabad follow the provisions in Customs Act - Section 59 (Customs Act of White Bill of Entry for home consumption in general Import Warehousing) as well.

Because for complete logistics, every link in the supply chain matters.

ICD **GURGAON**-GARHI HARSARU

Our largest Terminal, ICD Gurgaon - Garhi Harsaru is situated in the heart of the industrial belt of NCR. It spans 90 acres and has a handling capacity of more than 260,000 TEUs.

NETWORK

Strategically located, ICD Gurgaon - Garhi Harsaru caters to the industrial hubs of NCR (Gurgaon, Manesar, Faridabad, Ghaziabad), Haryana (Hisar, Panipat, Sonepat) and Rajasthan (Bhiwadi, Rewari, Dharuhera, Neemrana).

KEY FEATURES

We offer a range of warehousing facilities for both in-transit as well as bonded cargo storage and EXIM movement at Garhi. The ICD also has state-of-the-art, temperature-controlled warehouses for reefer logistics and another facility with 8,000 sq mt rack storage.

Import

- Our bonded warehouse for Import is spread across 10,500 sq mt
- Distinctive facilities available for both FCL (Full Cargo Load) and LCL (Loose Cargo Load)
- A 1,000 sq mt of area is exclusively designated to LCL cargo and 700 sq mt for temperature-controlled warehousing
- The Import Container Yard spans across an expanse of 23,000 sq mt

Export

Our Export wing exclusively addresses buyer consolidation and includes:

- A warehouse of 1,500 sq mt
- A 20,000 sq mt wide Export Yard

ICD FARIDABAD

ICD Faridabad, our latest ICD, spans 66 acres and is equipped to handle more than 150,000 TEUs. Situated close to NH2, it serves the industrial belt of UP with a rail link.

NETWORK

ICD Faridabad is strategically located to serve the industrial hubs of Faridabad, Ballabgarh, Palwal and Noida. It is connected to the Kundli-Manesar-Palwal Expressway and Faridabad-Ghaziabad-Noida corridor.

KEY FEATURES

- Terminal offers warehousing facility for both in-transit as well as bonded cargo storage and movement
- Road bridge connectivity to Garhi allows us to offer the same services at Piyala for export, import and domestic movement
- Very well-equipped, the warehouse makes adequate use of its essential equipment such as Reach Stackers, Hydra and Fork Lift Trucks for handling different types of cargo.

ICD **LUDHIANA**-SAHNEWAL

Situated amidst the industrial hub of Punjab, our ICD at Ludhiana is spread across 57 acres and has a handling capacity of 300,000 TEUs.

NETWORK

ICD Ludhiana - Sahnewal is Punjab's first private rail linked logistics park cum Inland Container Depot. With excellent connectivity to NH-1, the Terminal caters to Punjab, Himachal Pradesh, Chandigarh, Jammu & Kashmir and northern Haryana.

KEY FEATURES

- · Terminal offers warehousing facility for in-transit and cargo storage
- Total Transit Warehouse area covers 2,100 sq mt with carting slot facility of 60 - 18 sq mt each
- Temperature-controlled warehousing facilities are provided
- Very well-equipped, the warehouse makes adequate use of essential equipment such as Reach Stackers, Hydra and Fork Lift Trucks for handling different types of cargo
- ICD Ludhiana Sahnewal also offers carton re-packing and pallet repairing facilities

We have another transit warehouse of similar capacity, with chassis loading/unloading facility. The new warehouse is already equipped with CCTV cameras for overall security.

COMMODITIES HANDLED AT OUR WAREHOUSES INCLUDE

Auto parts | Shredded steel scrap | Paper | White goods | Plastic Machinery | Project imports | Chemicals | Agro products, etc.

SECURITYMEASURES

Cargo safety is of prime importance in our operating procedures. From security Guards/Supervisors at all Entry/Exit gates including warehouse shutters, to fail-safe IT security, we employ several stringent measures to ensure safety at all costs.

CARGO SAFFTY

- Hazardous cargo maintained in separate stacks, both in the container yard and the warehouse
- · Oil containers are kept within close vicinity of the main Water Pump area
- · Individual vigilance to sensitive cargo/stuffing by security personnel
- Designated area outside the ICD for supporting activities such as diesel storage, repair activity and workshop
- · 24x7 vigil at every Terminal through dedicated control room
- 24X7 monitoring at ICDs with both PTZ and Fixed CCTV Cameras

PERSONNEL AUTHORISATION

- Identification system for employees includes biometric identification besides badge identification
- Access to container yards and custom bonded areas is granted to authorised personnel only
- Tight documentation and movement control measures at the gate
- Rigorous verifications for all employees/contractors including police verification for sensitive posts
- Regular training for ICD employees and security staff with special emphasis on fire-fighting exercises

ADDITIONAL SECURITY

- · Sub-station manned by expert electrician round-the-clock
- 100% compliance with IT security
- · 24X7 online tracking facility
- Trucks fitted with GPS

C TPAT

C TPAT compliance aims to provide stringent security implementation at all ICDs. An entire team of expert professionals, inclusive of a Manager, Deputy Manager, Assignment Officer, Security Supervisor, Head Guard, Field Inspector and a fleet of security personnel are deployed for standardisation of various operating procedures and norms at the warehouses.

With the **C TPAT** in place, our Terminals have a robust safety system, incorporating elements non-negotiable to warehouse security such as:

- Fire Safety Equipment (Hydrant system, fire extinguishers, water tanks)
- Pump set-up
- · First-aid boxes
- · High mast
- Personal protective equipment (jackets/caps/hand gloves/masks)
- Emergency vehicles
- · Round-the-clock security guards
- Daily record-maintenance of all gate-in/gate-out details of CHA's, customers, labourers, labour supervisors and FLT operators visiting the warehouse
- CCTV cameras at all warehouses to monitor activities at carting/stuffing points round-the-clock

VALUE-ADD

- Warehouses located adjacent to the rail siding, facilitating cargo movement and transportation in an integrated ICD layout
- First and last mile connectivity
- Buyer's consolidation facility
- · Packaging, labelling and segregation services
- · Scientific racking system
- Multi-user facilities
- Trained professionals
